ISAM 2026 · LIVE DEMO

CORNELL TECH
MakerLAB

MakerLAB AI

Try it yourself.

Get a free demo pass and ask about any machine in the Cornell Tech MakerLAB. **Every answer cites the manual page.**

www.makerlabai.app/demo

THREE STEPS

1 Scan the code
Point your phone's camera at it.

2 Get a free demo pass
Name, email and school. No Cornell account needed.

3 Ask MakerLAB AI
About any machine in our lab. The pass lasts 14 days.

Questions to try

REAL MACHINES IN OUR LAB

OPERATE
"How do I load filament on the Prusa i3 MK3S+?"
Cites: Prusa MK3S+ Handbook, pp. 24–25

FIX
"Why won't my Form 4 print stick?"
Cites: Form 4 SOP, pp. 46–47

SAFETY
"What do I do if I see a flame in the Trotec laser?"
Cites: Trotec Speedy 400 SOP, p. 25

COMPARE
"Which machines here can cut acrylic?"
Cites: Epilog Helix 24 SOP, p. 120

BUILD
"Which machines could I use to make a lamp?"
Plans across the lab's machines

ANY LANGUAGE
"¿Cómo cargo el filamento en la Prusa?"
Answers in your language

Run a makerspace?

We'd like to hear what you would use it for. Tell us on the sign-up form, or find us at this demo.

ies22@cornell.edu

About the demo pass
