ISAM 2026 · LIVE DEMO

CORNELL TECH
MakerLAB

MakerLAB AI

Try it yourself.

Try it now: ask about any machine in the Cornell Tech MakerLAB.
Every answer cites the manual page.

AI TO HELP OPERATE, FIX AND BUILD

OPERATE

Ask how to run any machine in our lab, step by step.

FIX

Something went wrong? Find out what to check.

BUILD

Plan a project with the tools the lab has.

Questions to try

REAL MACHINES IN OUR LAB

OPERATE

“How do I load filament on the Prusa i3 MK3S+?”

Cites: Prusa MK3S+ Handbook, pp. 24–25

FIX

“Why won’t my Form 4 print stick?”

Cites: Form 4 SOP, pp. 46–47

BUILD

“Which machines could I use to make a lamp?”

Plans across the lab’s machines

OPERATE · COMPARE

“Which machines here can cut acrylic?”

Cites: Epilog Helix 24 SOP, p. 120

FIX · SAFETY

“What do I do if I see a flame in the Trotec laser?”

Cites: Trotec Speedy 400 SOP, p. 25

BUILD · ANY LANGUAGE

“¿Cómo cargo el filamento en la Prusa?”

Answers in your language

Run a makerspace?

We’d like to hear what you would use it for. Tell us on the sign-up form, or find us at this demo.
